Work Experience:

Front End Developer

Arena Web Security (September 2022 - Present)

Achievements/Tasks

- Building Interactive/Functional User Interfaces with Restful API.
- Maintain projects with different libraries such as React, Vue.js etc.
- Learned Vue.js, Socket.io & WebRTC which are used for making WhatsApp and Twitter alike chatting applications.
- Bug fixing and maintaining existing projects.
- Adding new features to existing projects and optimizing them for better user experience.
- Converting existing projects to React.js with better functionalities and integration with API.

Personal Projects:

Wrench and Screw - Tools Manufacturer (05/22 - 06/22)

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Developed a tools manufacturing company website named Wrench & Screws. Where user-panel & admin dashboard functionalities were implemented.
- A payment option is also available with the Stripe payment gateway.
- Users can buy any product with card payment and can provide reviews. Admin can add new products, delete an existing product, make any user admin & can manage client orders.

Furniture Warehouse - Eastwood (04/22 - 05/22)

[Live Link](#) | [Client Code](#) | [Server Code](#)

- Eastwood is a warehouse-based website where the admin can add new inventory and observe them on my items page.
- On the manage inventory page, the admin can delete a particular product. Also, he can restock a particular product by clicking manage from the home page.
- Admin can see products that are particularly added by him/her & lastly at the blogs route there are some blogs about Node, MongoDB & JWT.

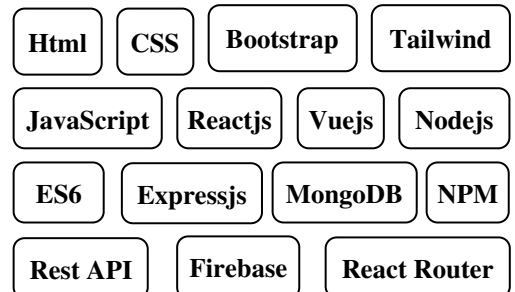

Cryptocurrency website - Cryptomania (10/22 - 10/22)

[Live Link](#) | [Client Code](#)

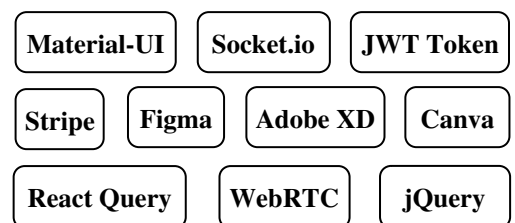

- Cryptomania is a simple UI focused landing page. It is a one page application for showing cryptocurrency price update.
- In this project there are several charts which are implemented by widgets and a flip clock which is made by jQuery.
